Please add comments on the effectiveness of instruction in this courses, explaining which elements were helpful and which could be improved. Please use specifics where possible.: Michael Hollis

- One of the best.

- Dr. Hollis used many helpful examples to illustrate the research and writing techniques for this class.

- Presentations and instructions were effective, otherwise I would not have a Capstone paper to submit. I appreciated having a class to show up for, even though it was only every other week. There were a few problems but that was outside of this area of instruction and tied to connectivity issues for research with the library and writing this paper to meet the format required.

- Very good instructor. He is extremely knowledgeable about written communication, analysis, and philosophy. I really enjoy learning from Dr. Hollis.
